

Corporate Overview

Biomedical Equipment Solutions (BES) is built on over 20 years of experience with the core value “If you have a need, we have a solution that will enhance your operations, increase profitability and help reduce costs.”

BES guides hospitals and agencies toward strategic ways of elevating performance by servicing more than 100 products from hundreds of manufacturers and OEMs in many field of medicine, including:

- Cardiology
- Dermatology
- General Surgery
- Gerontology
- Home-bound Patients' Needs
- Internal Medicine
- Neurology
- Obstetrics/Gynecology
- Oncology
- Pediatrics
- Pharmacies
- Plastic and Cosmetic Surgery
- Research Laboratories
- Respiratory

Our clients come to us when they need a trusted partner who understands their needs. Our highly knowledgeable service technicians (CBETs) with over 20 years of experience working on medical equipment (e.g., IV delivery systems and monitors) will provide the most efficient and timely maintenance and repair services for your equipment. At BES, we service both new and old equipment (even equipment that is no longer supported by the OEM [original equipment manufacturer]).
